### ELLA & LOUIS

Ella & Louis è un sistema trasformabile autoportante che integra un divano fisso L 216,5 cm con un letto matrimoniale a scomparsa che all'apertura con movimento abbattibile, si può dividere in due letti singoli con poltrona, separabili tra loro. La trasformazione del letto matrimoniale in due letti singoli, avviene mediante lo scorrimento su un binario appoggiato a pavimento e fissato a parete, con dispositivo di sgancio con pulsante per la divisione in due letti e con regolazione per i dislivelli. I meccanismi funzionali sono all'interno della struttura. Con l'apertura del letto/i, con testata imbottita, automaticamente le sedute del divano sfoderabile avanzano e gli schienali si ripongono.

Ella & Louis is a self-supporting transforming system which integrates a fixed sofa (W 216,5 cm) with a hide-away double bed with integrated pull-down mechanism, enabling its division into two separable single beds and an armchair. The transformation of the double bed into two single beds, takes place by sliding on a track resting on the floor and fixed to the wall, with a release device with button for dividing into two beds and with adjustment for unevenness. The functional mechanisms are inside the structure. When the bed or beds - complete with upholstered headboards - are opened, the sofa seats, with removable cover, automatically move forwards and the backs recline.
